- DRAPERY - press and release programming button on bottom of motor and blinking LED will flash Red.
- SHADES OR BLINDS - select desired channel on the remote and press and hold stop button for 5 seconds until receiver starts beeping.

## The Whole Story

The Pro Installer market has spoken, and we listened: Bond Bridge Pro is our new low frequency RF to Wi-Fi/ Ethernet bridge with a new look and new functionality.

It was created and designed for Pro Installers who demand to take the experience of using a Smart Bridge to the next level. It is an easier, faster, and more powerful way to connect RF controlled devices in a smart home automation portfolio.

**The setup is quick and easy, and there is no need for workarounds or complicated drivers in order to connect ceiling fans, fireplaces or shades.**

Just mount the Bond Bridge Pro to the wall or ceiling in a central location, to allow for full coverage and control of RF devices within the entire home. And, with PoE and ethernet, it allows a fully hard-wired integration.

And we are Open! Our open API allows integrations with all home automation systems.

## Supported Devices

Ceiling fans

Motorized shades

Fireplaces
